APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source with the understanding that the water is limited to that which is available at the point of diversion without demand for release upon any present upstream user. It is understood that the 25.0 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times. This permit is also subject to the terms and conditions of the State Engineer's ruling dated March 26, 1974.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 25.0 cubic feet per second but not to exceed 4.0 acre feet per acre annually.

Actual construction work shall begin on or before November 7, 1974
Proof of commencement of work shall be filed before December 7, 1974
Work must be prosecuted with reasonable diligence and be completed on or before November 7, 1975
Proof of completion of work shall be filed before December 7, 1975
Application of water to beneficial use shall be made on or before November 7, 1978
Proof of the application of water to beneficial use shall be filed on or before December 7, 1978
Map in support of proof of beneficial use shall be filed on or before December 7, 1978
